**Arie W. Kruglanski, PhD,** is Distinguished University Professor of Psychology at the University of Maryland, College Park.

# Social Psychology

THIRD EDITION

*Handbook of Basic Principles*

Edited by **Paul A. M. Van Lange, PhD, E. Tory Higgins, PhD,**  
and **Arie W. Kruglanski, PhD**

**This definitive work—now extensively revised with many all-new chapters—has introduced generations of researchers to the psychological processes that underlie social behavior.** What sets the book apart is its unique focus on the basic principles that guide theory building and research. Since work in the field increasingly transcends such boundaries as biological versus cultural or cognitive versus motivational systems, the third edition has a new organizational framework. Leading scholars identify and explain the principles that govern intrapersonal, interpersonal, intragroup, and intergroup processes, in chapters that range over multiple levels of analysis. The book's concluding section illustrates how social psychology principles come into play in specific contexts, including politics, organizational life, the legal arena, sports, and negotiation.

## New to This Edition

- Many new authors and updated chapter topics.
- Stronger emphasis on the contextual factors that influence how and why the basic principles work as they do.
- Incorporates up-to-date findings and promising research programs.
- Integrates key advances in such areas as evolutionary theory and neuroscience.

“This volume provides a panoramic view of classic and emerging topics in social psychology. The geographic diversity of the authors brings forth an exciting range of topics as well as offering up a more accurate perspective on the psychology of social behavior.”  
—**Mahzarin R. Banaji, PhD**

## Partial Contents

### I. Principles in Theory

*Intrapersonal Level:* 1. Evolutionary Foundations of Social Psychology. 2. Approach Motivation and Emotion from a Biological Perspective. 3. Judgment and Decision Making. 4. Construal Processes. 5. Motives Working Together. 6. Human Autonomy in Social Psychology.  
*Interpersonal Level:* 7. The Biological Foundations and Modulation of Empathy. 8. Social Bonds. 9. Understanding the Minds of Others. 10. Shared Reality. 11. Goal Transactivity. 12. Major Principles of Attachment Theory. 13. Relational Motives.  
*Intragroup Level:* 14. Indirect Reciprocity, Gossip, and Reputation-Based Cooperation. 15. Aggression, Violence, and Revenge. 16. Cultural Systems. 17. Social Ostracism.

18. The Social Power of Emotions.  
*Intergroup Level:* 19. Intergroup Processes. 20. Stereotype Content Model. 21. Perceiving Others as Group Members. 22. Intergroup Contact and Prejudice Reduction. 23. Categorization and Identity as Motivational Principles in Intergroup Relations. 24. Culture and Intergroup Relations.

### II. Principles in Context

25. Helping, in Context. 26. Social Psychology and Law. 27. Psychological Shortcomings to Optimal Negotiation Behavior. 28. How Prominent Features of Organizational Life Inform Principles of Social Psychology. 29. Political Extremism. 30. Achievement Goals and Self-Regulation in the Sport Context.
